

Wii Nunchuck Controlled Arduino Controlled Servo Robot (SERB) - Wiring Details

- Wire up your Arduino Controlled Servo Robot (SERB)

According to the wire details found here

- http://www.instructables.com/id/How_to_Make_an_Arduino_Controlled_Servo_Robot_SER/ -

- 1. nunchuck (data - (d) - green) - Analog pin 4
- 2. nunchuck (clock - (c) - yellow) - Analog pin 5
- 3. nunchuck (negative - (-) - white) - Arduino gnd
- 4. nunchuck (positive - (+) - red) - +5v

(the nunchuck is actually a 3.3v device but does work on 5v)
