

A. BUILD THE FRAME

1 Lay both vertical stud posts flat on the floor side by side. Measure half way up each stud post and mark a spot in the centre.

2 Place corner bracket over the marked spot and align with the bottom screw hole. Drill pilot holes then screw into the timber using 1 ¼" screws.

3 Turn both stud posts on their edge with the corner brackets facing each other.

4 Position the horizontal stud post between the vertical posts and centre on corner brackets.

5 Mark the screw holes and drill pilot holes. Fasten the bracket to the stud using 1 ¼" screws.

Tip: Use masking tape to hold the corner bracket in place

6 On the other side of the 2x4 horizontal stud post, position the corner bracket. Do not align with the corner bracket on the other side.

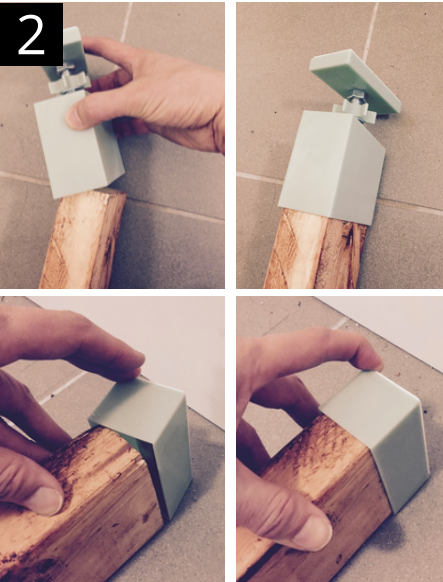

B. POSITION SHOE RACK ONTO WALL

1

Decide the location of the shoe rack.

Position the base of the shoe rack close to the wall.

2

Place the upper and bottom caps onto the stud post.

Bottom caps go on the base of the stud posts and upper caps the top

3

From the top end of the shoe rack, lift the frame up and let it rest against the wall.

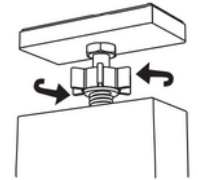

Ensure the shoe rack is vertical by using a spirit level.

TIP: For an online spirit level, download "Bubble Level" for free from the iPhone App Store.

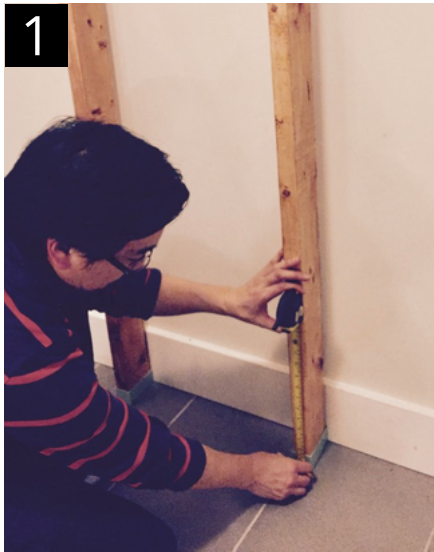

4

Turn the adjusting screws clockwise to tighten.

C. ATTACH THE HARDWARE

1

Measure 5" (12cm) from the bottom of the stud.

Place a mark in the centre of the stud post.

2

Align the mark with the bottom hole of the 48" shelf track.

TIP: Use masking tape to hold the shelf track in place while aligning the track

3

Mark each screw hole along the shelf track.

Drill pilot holes.

Use 1 ¼ flat head screws to fasten

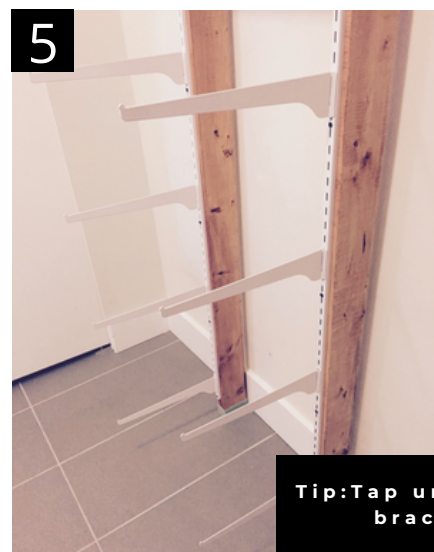

4

Align the 36" shelf track next to the first, centre it on the stud post.

Drill pilot holes

Use 1 ¼ flat head screws to fasten the shelf track to the stud post.

Tip: Use masking tape to hold the shelf track in place

5

Add pairs of shelf brackets onto the shelf track.

Use the handle of a hammer (or similar) to tap the top of the bracket to lock it in place.

Tip: Tap underneath the shelf bracket to release

6

Place on timber shelves
