

How to paint a brick

Follow these instructions to paint a brick from scratch. As you perform these instructions, refer to the photos of a brick below:

- 1) Layout a clean surface to paint on (**CAUTION:** paint isn't removeable to likeable materials of clothes, shoes, and furniture. Advise to use a clear surface one can get messy)

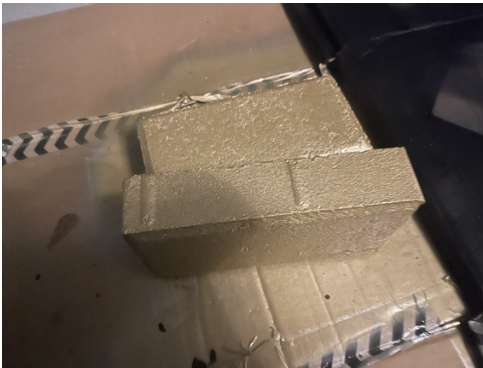

- 2) Layout bricks and supplies to prepare to start painting.

- 3) Apply primer to bricks with painter brush (**WARNING:** If step is skipped, will result in paint not sticking to brick and sinking into brick)

- 4) Allow primer to sit and dry on brick for two to three hours
- 5) Apply color of choice with paint brush to brick

- 6) Allow paint to dry for two to three hours
- 7) If color isn't desire, start back at step 5 until desire fullness of color is reached
